SOLUTION**

**THE SMALLEST
ELECTRIC STRIKE
IN THE WORLD...
DOES IT AGAIN!**

THE VERTICAL ROD SOLUTION

3275VRP-LC

The 3275VRP is the smallest electric strike solution for vertical rod latches.

Utilizes the heavy duty 3000F series mechanism.

For Use with:

- Sargent 97/68
- Arrow 3700/S1150/600
- Cal-Royal 9860V/F9860V
- Townsteel ED1200F
- Von Duprin 33/35
- Von Duprin 98/99 (Without the Deadlocking option)

**ACTUAL
SIZE**

Features:

SPECIALIZED SOLUTIONS
ELECTRIC STRIKE SERIES

- All stainless steel construction
- Horizontal adjustment
- Metal installation template included (acts as a mounting bracket, too)

- 1/16" spacer plate provided
- Include Trine's patented anchoring system for stability.
- Tested to Grade 1: BHMA - A156.31
- 1,500 lbs holding force
- 500,000+ life cycles
- LC100 included - 12/24 AC/DC input with surge and kick back protection

THE DEADBOLT SPLIT LATCH SOLUTION

Key Features:

- Two independently operated latch systems.
- Use with mortise locks with dead bolts up to 1" projection.
- **Flexible:** Always be prepared!
 - 4 faceplates included
 - 12 & 24DC, 12-24 AC, Low Current Draw
 - 1 Trim Skirt (matching finish)
- **Strong:** 2,000 lbs. holding force on each latch
- **Durable:** Exceeds 1,000,000 Life Cycles
- Works with the Schlage® L Series & Yale® 8700 Series **without** relocating mounting tabs.
- 1 - 11/16" backset.

Standards:

- 3-hour fire rated – UL10C, Fire Tests of Door Assemblies.
- BHMA Grade 1: ANSI/BHMA A156.5
- UBC 7-2, Uniform Building Code.
- CAN4 S104, Standard Method for Fire Tests of Door Assemblies.
- NFPA 252 - Issue: 1999/01/01 Standard Methods of Fire Tests of Door Assemblies.
- ANSI/BHMA A156.31-2007
- Patent # US10781611B2

Electric Characteristics *Per latch*

Voltage	Current/Amps	Ohms	Duty	Sound
12DC	0.266	45	Intm./Cont.	Silent
24DC	0.140	171	Intm./Cont.	Silent
12AC @ 60hz	0.232	50	Intm.	Buzz
16AC @ 60hz	0.310	45	Intm.	Buzz
24AC @ 60hz	0.465	45	Intm.	Buzz

HOW TO ORDER

Unit is Handed

HANDING OF DOOR IS ALWAYS DETERMINED FROM THE OUTSIDE.

FIRE RATING IS THE EVERYDAY STANDARD

Compare the 3478F, the 323478F, the 4800F for rim panics, or even the outdoor rated EN400 against the competition.

We offer a stronger, more durable, fire rated product... for less.

THE SMALLEST ELECTRIC STRIKE IN THE WORLD THE 3000 SERIES

TRINE
ACCESS TECHNOLOGY

478

Adjustable 4-7/8" ANSI standard faceplate

For new or replacement installation in wood or metal or frames. Use with cylindrical locksets having up to 5/8" throw, based on 1/8" door gap.

***1/8" horizontal adjustment guaranteed to never move.**

478-CCFP

INCLUDED WITH THE 478 FACEPLATE!

Competitor Cutout Filler Plate

Stainless plate designed to fill in the cut left by competitor models.

60% LESS CUTTING of Frame Face for ANSI 4 7/8" pre-prep frames.

No ugly black ramp!

Finishes:	Price:
478-32D (Satin Stainless Steel -- BHMA630)	\$44
478-32 (Polished Stainless Steel -- BHMA629)	\$69
478-US10B (Dark Bronze Powder Coat -- BHMA613E)	\$60

**Need an Installation
Tool?**

See page 53

ANSI FACEPLATE SOLUTIONS

The 3000 Series is the
'Notch and Go'
Electric Strike

478

Provides a small rectangular cut and the smallest backset of any ANSI electric strike. Compare to traditional electric strikes there is no competition.

Compare cutting!

**NO NEED
TO REMOVE
DUSTBOX**

With only a 1" total backset there is no need to remove the dustbox in most installations

**UNLIKE 'no-cut'
electric strikes.**

478 Faceplate
Just a small notch to install.

Typical 4 7/8" Electric Strike
Must remove Dust Box.

3000 SERIES STRIKES REDUCE THE AMOUNT OF LABOR, MODIFICATIONS, AND MATERIAL LOST ON DOOR FRAME

478LO / 478RO Faceplate

Same dimensions as 478 - except 3/16" lower cavity offset.

60% LESS FRAME CUTTING of Frame Face for ANSI 4 7/8" pre-prep frames. The strike opening on this face plate is **offset by 3/16"** from the center to accommodate door sag for the 478 (just change faceplates, and use the same mechanism)

**Accommodates
for door sag.**

THE SMALLEST ELECTRIC STRIKE IN THE WORLD THE 3000 SERIES

478X-375

Extended Lip Faceplate

Frame features an extended ramp to accommodate additional face of Timely®/Redi®/Raco®/IDP® frames. Use with cylindrical locksets and deadlatches having up to 5/8" throw, based on 1/8" door gap.

Provides the only professionally finished look for wood frames with trim.

**Ramp Extends
.375"**

**Made for
Timely®/Raco®/
Redi®/IDP® Frames**

**Need Fire
Rated?
See pg 12 for
the
323478FX-LC
3 hour fire rated
version**

GOODBYE UNATTRACTIVE BLACK RAMPS!

- Extended ramp (.375") accommodates snap-on additional frame face of Timely® & Redi® Frames.
- Eliminates traditional 4 7/8" ANSI strike cutting and black ramp extensions.
- 1/8" Horizontal Adjustments help prevent door pre-load.

See page 23 for wood and metal frame preps.

THE ONE BOX SOLUTION

FOR CYLINDRICAL AND MORTISE LOCKS

4100

AND DEADBOLTS TOO!

4100DB & 4100CDBM

**SINGLE LATCH - NIGHTLATCH ONLY
FUNCTION FROM THE 4100 SERIES**

**SIMPLE TO USE, NO HANDING,
ALL THE SAME GREAT QUALITIES AS
THE 4100 ELECTRIC STRIKE**

Key Features:

Use with cylindrical locksets, mortise locks without dead bolts and mortise exit devices.

- 1 - 3/8" shallow backset allows the 4100 to be used in 2" fire rated frames with 1/2" sheetrock ingress.
- **Flexible:** Always be prepared!
 - 4 faceplates included
 - 12 & 24DC, 12-24 AC, Low Current Draw
 - 1 Trim Skirt (matching finish) which covers competitor cutouts
- **Strong:** 3,000 lbs. of Holding Force (factory tested)
- **Durable:** Exceeds 1,000,000 Life Cycles
- Works with the Schlage® L Series & Yale® 8700 Series **without** relocating mounting tabs.

4100

Standards:

- 3-hour fire rated – UL10C, Fire Tests of Door Assemblies.
- Listed for UL1034 Burglary Resistant Electric Locking Mechanism, Grade 1
- 294 (6th Edition) Listed
- Tested to Grade 1: ANSI/BHMA A156.5
- UBC 7-2, Uniform Building Code.
- CAN4 S104, Standard Method for Fire Tests of Door Assemblies.
- NFPA 252 - Issue: 1999/01/01 Standard Methods of Fire Tests of Door Assemblies.
- USPT Patented #US20110241361

NOTE: Fire listing is always void when using fail safe action.

**Everything
included.**

**Premium
stainless steel
trim skirt**

THE ONE BOX SOLUTION FOR CYLINDRICAL AND MORTISE LOCKS

Aesthetics Matter

The Premium stainless steel trim skirt cleans up the cut line.

Not worrying about a perfect cut on the face saves time and looks great. Since aesthetics matter, the premium trim skirt ALWAYS matches the finish on the faceplates and electric strike body.

Cutting Matters

1 - 3/8" Low profile backset provides ease of installation.

Why cut for a deadbolt 100% of the time when they are only used 5% of the time.

Faceplates, strike body, mounting screws, latch, and trim skirt all match the finish.

Covers gap to maintain fire rating on frames

Electric Characteristics

Voltage	Current/Amps	Ohms	Duty	Sound
12DC	0.266	45	Intm./Cont.	Silent
24DC	0.140	171	Intm./Cont.	Silent
12AC @ 60hz	0.232	50	Intm.	Buzz
16AC @ 60hz	0.310	45	Intm.	Buzz
24AC @ 60hz	0.465	45	Intm.	Buzz

Power Matters

No additional "pacs" required.

Low Current Draw
.266 Amp at 12DC makes it very PoE Friendly

12 & 24DC :: 12 through 24AC
All the low voltage flexibility you need.

Low current draw, under 275 mA for 12DC, solves a number of installation and network load issues.

Finishes:

Price:

4100-32D (Satin Stainless Steel -- BHMA630) **\$590**

The following finishes are:

- **4100-US4** (Satin Brass -- BHMA606)

- ✦ **Superior Strength** - 1,500+ lbs factory tested.
- ✦ **Superior Life** - 1,000,000+ cycles.
- ✦ **Superior Application** -  Outdoor rating allows the strike to be used where the competition can not.

Key Features

- Continuous Duty runs very cool (DC only)
No extra Smart Pacs® needed
- Durability of 1,000,000+ life cycles
- Factory tested to 1,500+ lbs
- **Fail-secure/Fail-safe is field reversible on DC units**
- Left and Right handing is field reversible
- Low Current Draw (DC Models*)
Voltage & Amp draw is the same across all EN Models

Standards

-  Listed 10C - Fire-rated
- Class A, 3-hour, single swing door (except on 400RP, 800 & 850 models)
-  UL 1034 burglary-resistant listed and suitable for outdoor use
-  UL 294 (6th Edition) listed
- Tested to Grade 1 - A156.31-2007
- NYC MEA 79-01-E

HOW TO ORDER

Please provide the following information to ensure you receive the CORRECT electric strike.

Model # -- Voltage -- Finish -- Handing
example: 400 12DC 32D RH

*Fail Safe Request: Please add "RS" to item#

example: 400RS-12DC-32D-RH

Add \$15 to list price of base model.

Electric Characteristics

Voltage	Amps	Ohms	Duty	Sound
12AC	0.70	4.5	Intm.	Buzz
24AC	0.37	18.0	Intm.	Buzz
12DC	0.28	43.0	Intm./Cont.	Silent
24DC	0.15	164.0	Intm./Cont.	Silent

Wire Lead Color Codes

Voltage Wire Colors
12AC - Blue & Orange/White || 24AC - Blue & Black/White
12DC - 2 - Orange/White || 24DC - 2 - Black/White

THE OUTDOOR SOLUTION

FOR CYLINDRICAL, MORTISE, & RIM PANIC EXIT DEVICES

EN400CMRP

**THE ONLY ELECTRIC STRIKE SOLUTION
ON THE MARKET THAT CAN HANDLE**

**CYLINDRICAL, MORTISE,
DEADLATCHES, AND RIM PANICS**

The Flexible 400CMRP Includes:

- A completed strike in the box (see price section below).
- An additional strike latch to handle mortise, cylindrical, and rim panic strikes.
- The **EN400-Gatebox** - mount the strike anywhere.
- The **EN-24DC-CA** - change voltage in the field.
- Fail safe/Fail secure field reversible.
- Always Low Current Draw

EN400-Gatebox

**Install the EN400CMRP
anywhere on the frame or post.**

**Steel gatebox
is unfinished**

Aluminum
gatebox
available (see pg 46)

RP Latch

Finishes:

400CMRP-32D (Satin Stainless Steel -- BHMA630)
- unit comes as a 400-12DC-32D-RH; RP (rim panic) latch and 24DC coil are in the box.

Price:

\$625

400RPCM-32D (Satin Stainless Steel -- BHMA630)
- unit comes as a 400RP-24DC-32D-RH; CM (cylindrical/mortise) latch and 12DC coil are in the box.

\$625

Kits cannot be ordered with with latchbolt (LB) monitoring.
Please order from page 45/46 with a gatebox to match.

EN400

- Use with cylindrical and mortise Locks.
- Perfect for exterior doors and gates.
- Latch Shim Kit provided for horizontal cavity adjustment.
- Field reversible handing – remember to pick a specific hand when ordering to save time.

Light Commercial Electric Strikes

00 Series

005

For use in replacement installations in wood jambs and iron gates. Use with bored cylindrical locksets having up to 5/8" throw, based on 1/8" door gap.

Face Plate 3-1/2" x 1-3/8" – Mortise Backset 2-3/4" – Cavity Depth 1/2" – Cavity Width 9/16" – Cavity Height 1-1/2"

Need to upgrade to something stronger?
- Try the HD005 (below)

Price:

005 (Brass Powder Coated)	\$75
005C (Satin Chrome – BHMA651)	\$84
RS (Fail Safe) - For DC Models only.	add \$20

HD005

Screwed-on Faceplate and reinforced Latch Pin provide additional strength for **HEAVY DUTY** installations.

For use in replacement installations in wood jambs and iron gates. Use with bored cylindrical locksets having up to 5/8" throw, based on 1/8" door gap.

Face Plate 3-1/2" x 1-3/8" – Mortise Backset 2-3/4" – Cavity Depth 1/2" – Cavity Width 9/16" – Cavity Height 1-1/2"

Price:

HD005 (Brass Powder Coated)	\$100
HD005C (Satin Chrome – BHMA651)	\$107
RS (Fail Safe) - For DC Models only.	add \$20

S005

For use in replacement installations in wood jambs and iron gates. Use with bored cylindrical locksets having up to 3/4" throw, based on 1/8" door gap.

Face Plate 3-1/2" x 1-3/8" – Mortise Backset 2-7/8" – Cavity Depth 5/8" – Cavity Width 23/32" – Cavity Height 1-1/2"

Price:

S005 (Brass Powder Coated)	\$89
S005C (Satin Chrome – BHMA651)	\$99
RS (Fail Safe) - For DC Models only.	add \$20

006

For surface mount installations on metal or wood jambs, for in swinging applications. Use with locksets or night latches having up to 5/8" throw, based on 1/8" door gap. When mounted on a pair of doors, strike is mounted to the inactive leaf.

Case 2-1/8" x 1-3/16" – Surface Mounted – Die Cast Housing – Cavity Depth 1/2" – Cavity Width 1/2" – Cavity Height 1-3/8"

Price:

006 (Brass Powder Coated)	\$123
RS (Fail Safe) - For DC Models only.	add \$20

007

For use in new or replacement installations in wood jambs. Use with locksets having up to 3/4" throw, based on 1/8" door gap.

Face Plate 4-7/8" x 1-1/4" – Mortise Backset 2-7/8" – Cavity Depth 5/8" – Cavity Width 3/4" – Cavity Height 1-1/2"

Price:

007 (Brass Powder Coated)	\$117
007C (Satin Chrome – BHMA651)	\$122
RS (Fail Safe) - For DC Models only.	add \$20

The Adjustable 2000 Series

FEATURES

- Allows adjustment for wider latch bolts & poorly aligned doors & locksets
- **1/8" Horizontal Latch Adjustment**
- Releases Under Slight Door Preload
- Life Cycles - 500,000
- **Holding Force - 900 lbs**
- Solid Cast Latch - Chrome Plated
- Non-Handed Operation

THE INSTALLATION SOLUTIONS

4850-ITL

“Feel” the door work with the strike on the frame... then drill.

- 4850-ITL installation tool has magnets installed which allows it to attach to steel frames, so you can:
 - Adjust and center the strike before ever drilling a hole eliminating any mistakes.
 - Increase your installation speed on every job.
- 1/4" Spacer included, so the tool becomes 3/4" thick, and is also magnetized. (screws on side anchor the spacer to the tool)
- Included custom center punch makes precise marks on the frame for drilling. Marks all anchor pin holes, mounting screws, power, and optional LB sensor.
- Patented

Price:

4850-ITL \$435

Wireless Chimes & Transformers

232 -- BATTERY OPERATED

- Field selectable 2 note or 1 note
- Up to 100ft operating range
- 64 selectable security codes. Setting the same code on multiple devices will allow them to chime at the same time (if within range). Setting different codes will allow multiple chimes in proximity to work without interference
- Requires 3 "C" batteries (not included) - A-23 battery included
- FCC-IC approved

Price: \$40

598 --CLAMP ON TYPE/TRI VOLT (AC)

- Equipped with convenient screw-bracket mounting clamp for standard 1/2" knockouts
- 120 volt primary AC
- 2-15/16"D x 2-7/32"H x 2-11/32"W 1lb 6oz

598 Electric Characteristics:

8VAC -- 20VA -- 2.50 AMPS
16VAC -- 30VA -- 1.88 AMPS
24VAC -- 30VA -- 1.25 AMPS

Price:

598 \$35

599 \$36

599 -- (2) -- CLAMP ON TYPE (AC)

- Equipped with convenient screw-bracket mounting clamp for standard 1/2" knockouts
- 120 volt primary AC
- Electric Characteristics: 2-15/16"D x 2-3/16"H x 2-11/32"W 1lb 6oz
24VAC -- 40VA -- 1.65 AMPS

5204 -- PLUG IN TYPE (AC)

- 120 volt primary AC
- Electric Characteristics: 2"D x 3"H x 2-1/2"W 7oz
12VAC -- 20VA -- 1.667 AMPS

Price:

5204 \$30

5205 -- PLUG IN TYPE/TRI VOLT (AC)

- 120 volt primary AC
- 2"D x 3"H x 2-1/2"W 7oz

5205 Electric Characteristics:

8VAC -- 10VA -- 1.25 AMPS
16VAC -- 10VA -- 0.62 AMPS
24VAC -- 20VA -- 0.83 AMPS

Price: \$35

SR1 -- SILICON RECTIFIER (SR-1)

- For converting AC voltage to DC voltage
- For AC power supplies up to 27 volt AC 1 amp.
- Size 1" x 1/2" x 1"

Electric Characteristics:
12-27VAC -- 1.00 AMPS

Price: \$30

Accessories

Wireless Controller & Transmitter

017TDC-4 – WIRELESS CONTROLLER

UTILIZES ROLLING CODE

- 500' Range
 - 2 Channel receiver and transmitter
 - Independently programmable A & B channel.
 - 4, 8, 16 second delay or alternate action trigger
 - Dry contact relay rated up to 30V @ 5 amps
 - Single push button program erase (for security)
 - Screw terminal connections
 - Up to 8 transmitters per one receiver.
 - FCC-IC approved.
- **Not backwards compatible with any previous 017TDC/018 models.**

Price: **\$109**

018-4 – WIRELESS TRANSMITTER

TWO BUTTON TRANSMITTER

- Four color options
- 8 transmitters per receiver.
- LED indicates operation
- Rolling Code technology provides self learning and 4+ billion codes.
- A-23 Battery Included
- FCC-IC approved

Alerts, Signal Kits, & Door Switches

342 -- ELECTRIC DOOR SWITCH (THE NARROW STYLE)

- Face plate brass finish 3-7/8"H x 1-1/4"W
- Box 2-5/8"H x 1-3/16"W x 2-1/8"D
- Switch Rating: 120VAC, 10 Amps 250VAC, 5 Amps
- Field selectable N/C or N/O
- Stamped steel case – UL, CSA listed switch & wire leads
- Faceplate Powder Coated Brass
- 4 - knockouts 7/8"

Price:

342

\$28

Accessories

Door Chimes, Bells, Buzzers, & Chime Kits

240 – CHIME

- Chime base with solid white cover
- Offers 2 note front door/ 1 note rear door ability
- Operating voltage 12-16VAC – Mounting base hardware provided
- 80 db sound at 3 feet – Outer dimension 7-1/4" x 4-3/4" x 1-7/8"

Price:

240 \$33

270 – BUZZER

- Enclosed buzzer – 92db sound at 3 feet
- Operating range 3-6VDC, 8-16 VAC, 1 Amp draw
- Aluminum powder coat finish
- Includes mounting hardware

Price:

270 \$21

272 – BELL

- 100 db sound at 3 feet – 2-1/2" open bell
- Operating range 3-6VDC, 8-16 VAC, 1 Amp draw
- Aluminum powder coat finish
- Includes mounting hardware

Price:

272 \$23

274 – BELL

- 100 db sound at 3 feet – 4" open bell
- Operating range 3-6VDC, 8-16 VAC, 1 Amp draw
- Aluminum powder coat finish
- Includes mounting hardware

Price:

274 \$25

275 – ENCLOSED BELL

- 88 db at 3 feet
- Operating range: 3-8VDC, 1.4 Amp draw
- 6-8VAC, 0.7 Amp draw
- Grey finish – Includes mounting hardware

Price:

275 \$28

276 – ENCLOSED BELL & BUZZER

- 88 db at 3 feet
- Operating range: 3-8VDC, 1.4 Amp draw
- 6-8VAC, 0.7 Amp draw
- Grey finish – Includes mounting hardware

Price:

276 \$35

Glossary

ALTERNATING CURRENT (AC)

An electric current that reverses direction in a circuit at regular intervals.

CONTINUOUS DUTY

A device that is designed to operate continuously without rest.

CURRENT

Measured flow of electrons through an electrical conductor. Normally measured in amperes.

DIRECT CURRENT

An electric current flowing in one direction.

DOOR HANDING

FAIL SAFE

A device that is normally open and locks when power is applied to the unit. Example: During a loss of power the device remains open. Often listed as "RS"

FAIL SECURE

A device that is normally closed or locked until power is applied. Example: During a loss of power the device remains locked.

FUSE

A device that is placed in the path of energy that will break the circuit if the current becomes too great. This is accomplished by having a strip of metal that will melt when the current exceeds the required amount.

INTERMITTENT DUTY

A device that is designed to operate for a short period of time; generally less than 45 seconds.

LOCKSET TYPES

NORMALLY OPEN

The contacts of a switch or relay are normally open or not connected. When activated the contacts close or become connected. EXAMPLE: A switch is not depressed and the circuit is not complete.

NORMALLY CLOSED

The contacts of a switch or relay are normally closed or connected. When activated the contacts open or become disconnected. EXAMPLE: A switch is not depressed and the circuit is complete.

OHMS

The measure of resistance of an electrical device to resist the flow of energy.

RECTIFIER

A device that is commonly used to convert AC to DC. Commonly used to silence the audible sound that an electrical strike can make while energized on AC current.

RELAY

An electro-magnetic device activated by a variation in conditions in one electric circuit and controlling a larger current or actuating other devices in the same or another electric circuit.

STANDARD VOLTAGE

Electric door strike supplied with magnetic coils: 4-6VDC/8-16VAC. Electric door strikes supplied with a solenoid coil: 6-10VDC, 10-16VAC: other voltages available.

TRANSFORMER

A device consisting essentially of two or more coils of insulated wire that transfers alternating current by electro-magnetic induction from one winding to another at the same frequency, but usually with changed voltage & current.

VOLT

A unit of electric potential equal to the difference of electric potential between two points that have a resistance of one ohm and through which a current of one amperes is flowing.

VOLTAGE DROP?

We recommend the following wire sizes:

Wire Length	12V	24V
Up to 50 ft.	18 AWG	20 AWG
51-150 ft.	16 AWG	18 AWG
151-300 ft.	14 AWG	16 AWG
301-600 ft.	12 AWG	14 AWG

WATT

The power developed in a circuit by a current of one ampere flowing through a potential difference of one volt.

CONDITIONS OF SALE

Distributors and Other Commercial Customers

Note: The following Conditions of Sale are subject to change: All Sales Transactions are subject to the latest published Conditions of Sale of the Trine Access Technology Corporation and to any Special Conditions of Sale which may be contained in applicable Trine quotations and acknowledgements. Modified product warranties are provided to consumers.

1. **ACCEPTANCE, GOVERNING PROVISIONS AND CANCELLATIONS.** No order for Trine Access Technology or services shall be binding upon Trine until accepted by a writing of an authorized official of Trine or by shipment or other performance of such order. Any such order shall be subject to these Conditions of Sale, and acceptance shall be expressly conditioned on assent to such Conditions, which assent shall be deemed given unless purchaser shall expressly notify Trine to the contrary prior to the earlier of any shipment or other performance of an order by Trine or within five (5) days after purchaser's receipt of any acknowledgement or confirmation of such order. Trine expressly reserves the right to reject and withdraw acceptance of any order.

No order accepted by Trine may be altered or modified by purchaser unless agreed to in a writing signed by an authorized official of Trine; and no such order may be cancelled or terminated except upon payment of Trine's loss, damage and expense arising from such cancellation or termination. These Conditions of Sale may not be supplemented or modified by course of dealing, course of performance or any oral communication between the parties. No modified or other conditions will be recognized by Trine unless specifically agreed to in writing and failure of Trine to object to provisions contained in any purchase order or other communication from a purchaser (including, without limitation, penalty clauses of any kind) shall not be construed as a waiver of these Conditions nor an acceptance of any such provisions.

Unless otherwise agreed in writing by a duly authorized representative of Trine, products sold hereunder are not intended for use or in connection with a nuclear facility or activity. If so used, Trine disclaims all liability for any nuclear damage, injury or contamination, and purchaser shall indemnify Trine against any such liability, whether as a result of breach of contract, warranty, tort (including negligence) or otherwise. Any contract for sale and these Conditions shall be governed by and construed according to the laws of the State of Connecticut. Any dispute arising out of or relating to these Conditions of Sale or any matter relating hereto shall be brought in the federal or state courts sitting in or for the Bethel, Connecticut, and the parties waive any objection they may have to the jurisdiction or subject matter of these courts.

2. **QUOTATIONS AND PRICES.** Written quotations are conditioned upon acceptance by purchaser within thirty (30) days from the date issued and shall be considered as offers by Trine to sell during such thirty (30) day period on these Conditions of Sale unless sooner terminated by notice. Other Trine publications are maintained as sources of general information and are not quotations or offers to sell.

All clerical errors are subject to correction.

MINIMUM ORDER: \$100.00 Net. DROP SHIP FEE: Trine reserves the right to charge a fixed fee of \$10.00 for shipping to an address other than customers.

All prices are subject to change without notice. In the event of a net price change, the price of equipment on order but unshipped will be adjusted to the price in effect at the time of shipment. Downward adjustment of prices shall apply only to unshipped portions of outstanding orders.

3. **PAYMENT TERMS.** Unless otherwise agreed by Trine, terms of payment for Trine products to purchasers of satisfactory credit are either (1) a 1% cash discount for all invoices paid in full if the payment is received by Trine within 10 days after the date of Trine's invoice or (2) full payment to be received by Trine within 30 days after the date of Trine's invoice. Applicable terms of payment are stated in quotations or on the discount sheet for the product involved. Cash discount will apply only to the net amount of the invoice after transportation charges and taxes. A late charge of 1% per month or the maximum amount permitted by law will be applied to all past due amounts.

Trine reserves the right at any time to demand full or partial payment before proceeding with a contract of sale if, in its judgment, the financial condition of purchaser shall not justify the terms of payment specified. If delivery is delayed or deferred by purchaser beyond the scheduled ate, payment shall be due in full when Trine is prepared to ship and the products may be stored at the risk and expense of purchaser. If purchaser defaults when any payment is due, then the whole contract price shall become due and payable upon demand, or Trine, at its option, without prejudice to other lawful remedies, may defer delivery or cancel the contract for sale.

4. **TAXES AND OTHER CHARGES.** Any manufacturer's tax, retailer's occupation tax, use tax, sales tax, excise tax (except the Federal excise tax on vehicles), duty, custom, inspection or testing fee, or other tax, fee or charge of any nature whatsoever, imposed by any governmental authority, on or measured by any transaction between Trine and purchaser, shall be paid by purchaser in addition to the prices quoted or invoiced. In the event Trine shall be required to pay any such tax, fee or charges, purchaser shall reimburse Trine therefore; or, in lieu of such payment, purchaser shall provide Trine at the time the order is submitted with an exemption certificate or other document acceptable to the authority imposing the same. Purchase orders must state the existence and amount of any such tax, fee or charge which it shall be Trine's responsibility to collect from purchaser and pay.

5. **DELIVERY.** Delivery of products to a carrier at any Trine facility or other shipping point shall constitute delivery to purchaser; and, regardless of freight payment, title and all risk of loss or damage in transit shall pass to purchaser at that time. Trine cannot be held responsible for breakage after having received "in good order" receipts from the transportation company. All claims for loss and damage must be made by purchaser to the carrier. Claims for shortages or other errors must be made in writing to Trine within 15 days after receipt of shipment, and failure to give such notice shall constitute unqualified acceptance and a waiver of such claims by purchaser. Unless otherwise agreed by Trine in quotations, discount schedules, catalogs or other Trine publications, all expenses of freight FOB Trine's place of shipment shall be borne by purchaser. No allowance will be made in lieu of transportation if purchaser accepts shipment at factory, warehouse, freight station, or otherwise supplies its own transportation. Method and route of shipment will be at the discretion of Trine unless purchaser shall specify otherwise, and any additional expense of the method or route of shipment specified by purchaser shall be borne by purchaser. Trine reserves the right to make delivery in installments, unless otherwise expressly stipulated in the contract for sale; and all such installments when separately invoiced shall be paid for when due per invoice, without regard to subsequent deliveries. Delay in delivery of any installment shall not relieve purchaser of its obligations to accept remaining deliveries.

6. **SUBSTITUTES.** Trine may furnish suitable substitutes for materials unobtainable because of priorities or regulations established by governmental authority or non-availability of materials from suppliers, and assumes no liability for deviation from published dimensions and descriptive information not essential to proper performance of the products.

7. **WARRANTIES TO DISTRIBUTORS AND OTHER COMMERCIAL CUSTOMERS.** Trine warrants products manufactured by it to be free from defects in materials and workmanship for a period of one (1) year from date of shipment by Trine, except for all Axiom (R) labeled products which are covered for two (2) years from date of shipment by Trine. If within such period any such products shall be proved to Trine's satisfaction to be so defective, such products shall be repaired or replaced at Trine's option. This warranty shall not apply (a) to products not manufactured by Trine, (b) to products which shall have been repaired or altered by other than Trine so as, in its judgment, to affect the same adversely, or (c) to equipment which shall have been subjected to negligence, accident or damage by circumstances beyond Trine's control, or to improper operation, maintenance or storage, or to other than normal use or service. With respect to products not manufactured by Trine, the warranty obligations of Trine shall in all respect conform and be limited to the warranty actually extended to Trine by its supplier. The foregoing warranties do not cover reimbursement for transportation, removal, installation, or other expenses which may be incurred in connection with repair or replacement. Except as may be expressly provided in an authorized writing by Trine, Trine shall not be subject to any other obligations or liabilities whatsoever with respect to products manufactured by Trine or services rendered by Trine.

THE FOREGOING WARRANTIES ARE EXCLUSIVE AND IN LIEU OF ALL OTHER EXPRESS AND IMPLIED WARRANTIES, INCLUDING WITHOUT LIMITATION TITLE, MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

8. **LIMITATION OF LIABILITY.** Anything to the contrary herein contained notwithstanding, TRINE ACCESS TECHNOLOGY, ITS CONTRACTORS AND SUPPLIERS OF ANY TIER SHALL NOT BE LIABLE IN CONTRACT, IN TORT (INCLUDING NEGLIGENCE OR STRICT LIABILITY) OR OTHERWISE FOR ANY SPECIAL, INDIRECT, INCIDENTAL CONSEQUENTIAL, PUNITIVE, OR EXEMPLARY DAMAGES WHATSOEVER. The remedies of the purchaser set forth herein are exclusive where so stated and the total cumulative liability of Trine, its contractors and suppliers of any tier, with respect to this contract or anything done in connection therewith, such as the use of any product covered by or furnished under the contract, whether in contract, in tort (including negligence or strict liability) or otherwise, shall not exceed the price of the product or part on which such liability is based. Further, any claim purchaser may have with reference to Trine products or services sold or provided hereunder shall be deemed waived by purchaser unless asserted against Trine in writing within 90 days from the date the purchaser discovered, or should have discovered, the basis for the claim.

9. **RETURN OF EQUIPMENT.** No products may be returned without first obtaining Trine's written permission and a returned goods authorization number. Trine shall issue a credit to purchaser for returned goods, subject to the terms of this paragraph, and purchaser will not be entitled to any other form of reimbursement for returns. Products accepted for credit, not involving a Trine error, **shall be subjected to a minimum service charge of \$25.00, or a charge of 20% of invoice**, whichever is greater, plus all transportation charges incurred by Trine. THE MINIMUM RESTOCKING CHARGE IS \$25.00. Returned products must be securely packed to reach Trine without damage, any cost incurred by Trine to put the products in first class condition will be charged to purchaser.

10. **PATENTS.** As to products sold to purchaser by Trine, Trine shall defend any suit or proceeding brought against purchaser so far as based on a claim that said products constitute an infringement of any patent of the United States, if notified promptly in writing and given authority, information and assistance at Trine's expense for the defense of the same. In the event of a final award of costs and damages, Trine shall pay such award. In the event the use of said products by purchaser is enjoined in such a suit, Trine shall, at its own expense, either (a) procure for purchaser the right to continue using said products, (b) modify said equipment to render them non-infringing, (c) replace said products with non-infringing products, or (d) refund the purchase price (less depreciation) and the transportation and installation costs of said products. Trine will not be responsible for any compromise or settlement made without its written consent. The foregoing states the entire liability of Trine for patent infringement, and in no event shall Trine be liable if the infringement charge is based on the use of Trine products for a purpose other than that for which sold by Trine, any alteration to the Trine products or the use of the Trine products with any other product or service not manufactured by Trine. As to any products furnished by Trine to purchaser and manufactured in accordance with designs provided by purchaser, purchaser shall defend, indemnify and hold harmless Trine against any award made against Trine for patent, trademark, or copyright infringement.

11. **PATTERNS AND TOOLS.** Notice will be given if special patterns or tools are required to complete any order. Charges for such patterns or tools do not convey title thereto or the right to remove them from Trine's plant. If patterns or tools are not used for a period of two years, Trine shall have the right to scrap them without notice.

12. **FORCE MAJEURE.** Trine shall not be liable in damages or otherwise for delays in shipment or default in delivery for any reason of force majeure or for any cause beyond Trine's reasonable control including, but not limited to (a) an act of nature; (b) government action, war, riots, civil commotion, embargoes or martial laws, (c) Trine's inability to obtain necessary materials from its usual sources of supply, (d) shortage of labor, raw material, production or transportation facilities or other delays in transit, (e) other contingencies of manufacture or shipment. In the event of any delay in Trine's performance due in whole or in part to any cause beyond Trine's reasonable control, Trine shall have such additional time for performance as may be reasonably necessary under the circumstances. Acceptance by purchaser of any goods shall constitute a waiver by purchaser of any claim for damages on account of any delay in delivery of such goods.

- + Strike has 1-1/16" backset vs. 1" backset for 3000 Series.
 Ω Requires 80% less cutting of frame. Fills the frame preparation of the Adams Rite MS Locks without the need To relocate tabs for 6 5/8" or 6 7/8" electric strikes.
 \ddagger Requires 60% less frame face cutting other than models listed.
 Δ 9400 backplate means it can only handle up to a 1/2" throw – The 4850 can take up to a 1" throw.
 * UL 90 Minute Fire Rated
 ** All Stainless Steel construction, not fire rated.
 Φ Not a shallow (1 3/8") backset – cannot be used in 2" fire rated frames with 1/2" sheetrock ingress
 ∂ Number is for the Faceplate – use with a 3012, 3024, 30LC, or 30RS Mechanism, see pg 34 for more details.

NOTE: There may be variations in physical size or electrical characteristics between manufacturers. Information in the above chart based on manufacturers' catalogs and reference should be made to manufacturer's catalog for complete detail comparisons.
