SURFACE VERTICAL **ROD SOLUTION**

3275VRP-LC

The 3275VRP is the smallest electric strike solution for surface vertical rod latches.

Utilizes the heavy duty 3000F series mechanism.

For Use with:

- Sargent 97/68
- Arrow 3700/S1150/600
- Cal-Royal 9860V/F9860V
- Townsteel ED1200F
- Von Duprin 33/35
- Von Duprin 98/99 (Without the Deadlocking option)

**ACTUAL
SIZE**

SPECIALIZED SOLUTIONS
ELECTRIC STRIKE SERIES

Features:

- All stainless steel construction
- Horizontal adjustment
- Metal installation template included (acts as a mounting bracket, too)

- 1/16" spacer plate provided
- Include Trine's patented anchoring system for stability.
- 1,500 lbs holding force
- 500,000+ life cycles
- LC200 included - 12 - 24 DC
(DO NOT USE LC200 WITH AC POWER)

IMPORTANT - SEE PAGE 11 - NEW ELECTRONICS

VOLTAGE	PULL IN/HOLD AMPS	OHMS
12VDC	0.420/.280	N/A
24VDC	0.840/.150	N/A
12VAC	0.840	13
16VAC	1.200	13

THE DEADBOLT SPLIT LATCH SOLUTION

Key Features:

- Two independently operated latch systems.
- Use with mortise locks with dead bolts up to 1" projection.
- **Flexible:** Always be prepared!
 - Four faceplates included
 - 12 & 24DC, 12-24 AC, Low Current Draw
 - One Trim Skirt (matching finish)
- **Strong:** 2,000 lbs. holding force on each latch
- **Durable:** Exceeds 1,000,000 Life Cycles
- Works with the Schlage® L Series & Yale® 8700 Series **without** relocating mounting tabs.
- 1 - 11/16" backset.

Standards:

- 3-hour fire rated – UL10C, Fire Tests of Door Assemblies.
- BHMA Grade 1: ANSI/BHMA A156.5
- UBC 7-2, Uniform Building Code.
- CAN4 S104, Standard Method for Fire Tests of Door Assemblies.
- NFPA 252 - Issue: 1999/01/01 Standard Methods of Fire Tests of Door Assemblies.
- ANSI/BHMA A156.31-2007
- Patent # US10781611B2

Electric Characteristics *Per latch*

Voltage	Current/Amps	Ohms	Duty	Sound
12DC	0.310	39	Intm./Cont.	Silent
24DC	0.140	171	Intm./Cont.	Silent
12AC @ 60hz	0.280	39	Intm.	Buzz
16AC @ 60hz	0.380	39	Intm.	Buzz
24AC @ 60hz	0.550	39	Intm.	Buzz

Finishes:

4100DBDL-32D (Satin Stainless Steel -- BHMA630)

The following finishes are:

- **4100DBDL-US4** (Satin Brass – BHMA606)
- **4100DBDL-US10** (Satin Bronze – BHMA612)

See page 54

ANSI FACEPLATE SOLUTIONS

The 3000 Series are the
'Notch and Go'
Electric Strikes

478

Requires a small rectangular cut
and has the smallest backset of any
ANSI electric strike. Compared to
traditional electric strikes there is
no competition.

**NO NEED
TO REMOVE
DUSTBOX**

With only a 1"
total backset
there is no need
to remove the
dustbox in most
installations

**UNLIKE 'no-cut'
electric strikes.**

478 Faceplate
Just a small
notch to install.

Compare cutting!

Typical 4 7/8"
Electric Strike
Dust Box must be
removed.

ACCOMMODATE FOR DOOR SAG - replace your 478 with a 478RO (right offset)
and the 478LO (left offset).

478LO / 478RO Faceplate

Same dimensions as 478 - except 3/16" lower cavity offset.

60% LESS FRAME CUTTING of Frame Face for ANSI 4 7/8" pre-prep frames. The strike opening on this face plate is **offset by 3/16"** from the center to accommodate door sag for the 478 (just change faceplates, and use the same mechanism).

HOW TO ORDER:

SEE PAGE 15 FOR PRICING.

TO ORDER ADD RO (FOR RIGHT OFFSET) OR
LO (FOR LEFT OFFSET).

THE ONE BOX SOLUTION

FOR CYLINDRICAL AND MORTISE LOCKS

4100

WITHOUT DEADBOLTS
(CUT LESS!)

WITH DEADBOLTS

4100DB & 4100CDBM

**SINGLE LATCH - NIGHTLATCH ONLY
FUNCTION FROM THE 4100 SERIES**

**SIMPLE TO USE, NO HANDING,
ALL THE SAME GREAT QUALITIES AS
THE 4100 ELECTRIC STRIKE**

THE ONE BOX SOLUTION

FOR CYLINDRICAL AND MORTISE LOCKS

Key Features:

Use with cylindrical locksets, mortise locks without dead bolts and mortise exit devices.

- 1 - 3/8" shallow backset allows the 4100 to be used in 2" face fire rated frames with 1/2" sheetrock ingress.
- **Flexible:** Always be prepared!
 - Four faceplates included
 - 12 & 24DC, 12-24 AC, Low Current Draw
 - One Trim Skirt (matching finish) which covers competitor cutouts
- **Strong:** 3,000 lbs. of Holding Force (factory tested)
- **Durable:** Exceeds 1,000,000 Life Cycles
- Works with the Schlage® L Series & Yale® 8700 Series **without** relocating mounting tabs.

4100

Standards:

- 3-hour fire rated – UL10C, Fire Tests of Door Assemblies.
- Listed for UL1034 Burglary Resistant Electric Locking Mechanism, Grade 1
- 294 (6th Edition) Listed
- Tested to Grade 1: ANSI/BHMA A156.5
- UBC 7-2, Uniform Building Code.
- CAN4 S104, Standard Method for Fire Tests of Door Assemblies.
- NFPA 252 - Issue: 1999/01/01 Standard Methods of Fire Tests of Door Assemblies.
- USPT Patented #US20110241361

NOTE: Fire listing is always void when using fail safe action.

THE ONE BOX SOLUTION
FOR CYLINDRICAL AND MORTISE LOCKS

Aesthetics Matter

The **Premium** stainless steel trim skirt cleans up the cut line.

Not worrying about a perfect cut on the face saves time and looks great. Since aesthetics matter, the premium trim skirt **ALWAYS** matches the finish on the faceplates and electric strike body.

Large gap left when replacing the competition.

The Trim Skirt fills in the gap.

Covers the gap to maintain the fire rating.

Cutting Matters

1 - 3/8" Low profile backset provides ease of installation.

Why cut for a deadbolt 100% of the time when they are only used 5% of the time.

Faceplates, strike body, mounting screws, latch, and trim skirt all match the finish.

Electric Characteristics

Voltage	Current/Amps	Ohms	Duty	Sound
12DC	0.310	39	Intm./Cont.	Silent
24DC	0.140	171	Intm./Cont.	Silent
12AC @ 60hz	0.280	39	Intm.	Buzz
16AC @ 60hz	0.380	39	Intm.	Buzz
24AC @ 60hz	0.550	39	Intm.	Buzz

Power Matters

Low Current Draw
.310 Amp at 12DC makes it very PoE Friendly

12 & 24DC :: 12 through 24AC
All the low voltage flexibility you need.

No additional
"pacs"
required.

4800 SERIES ACCESSORIES & PATENTED ANCHORING PIN SYSTEM

PATENTED ANCHORING SYSTEM

- 4 or 6 Pin system included in every 4800 series strike.
- Prevents strike from shifting on the frame for the most secure installation.
- Two center pins on 4850 suggested for installs in high traffic locations.

• The Anchor System provides up to six additional points of contact for the toughest installations.

• The 4850 can have a total 8 points of connection between the frame and strike for maximum strength.

• Anchoring pins are .128" diameter. A #30 drill bit is recommended.

THE ONE BOX SOLUTION

FOR ALL GATE AND OUTDOOR INSTALLATIONS

- FIRE RATED
- BURGLARY RATED
- OUTDOOR RATED
- 294 RATED

EN400CMRP

**THE GATE "KIT"
FOR ELECTRIC STRIKES**

**THE ONLY ELECTRIC STRIKE THAT CAN CHANGE LATCHES
TO WORK WITH CYLINDRICAL, MORTISE, AND RIM PANICS**

- Contains **ONLY** eight total parts.
- Only **1** moving part in the locking mechanism.
- All stainless steel construction.

- ✦ **Superior Strength** - 1,500+ lbs factory tested.
- ✦ **Superior Life** - 1,000,000+ cycles.
- ✦ **Superior Application** -  Outdoor rating allows the strike to be used where the competition can not.

Key Features

- Continuous Duty runs very cool (DC only)
No extra Smart Pacs® needed
- Durability of 1,000,000+ life cycles
- Factory tested to 1,500+ lbs
- **Fail-secure/Fail-safe is field reversible on DC units**
- Left and Right handing is field reversible
- Low Current Draw (DC Models*)
Voltage & Amp draw is the same across all EN Models

Standards

-  Listed 10C - Fire-rated
- Class A, 3-hour, single swing door
(except on 400RP, 800 & 850 models)
-  UL 1034 burglary-resistant
listed and suitable for outdoor use
-  UL 294 (6th Edition) listed
- Tested to Grade 1 - A156.31-2007
- NYC MEA 79-01-E

HOW TO ORDER

Please provide the following information to ensure you receive the CORRECT electric strike.

	Model #	—	Voltage	—	Finish	—	Handing
example:	400		12DC		32D		RH
example:	800		24AC		10B		LH

*Fail Safe Request: Please add "RS" to item#
example: 400RS-12DC-32D-RH

Add \$15 to list price of base model.

Electric Characteristics

Voltage	Amps	Ohms	Duty	Sound
12AC	0.70	4.5	Intm.	Buzz
24AC	0.37	18.0	Intm.	Buzz
12DC	0.28	43.0	Intm./Cont.	Silent
24DC	0.15	164.0	Intm./Cont.	Silent

Wire Lead Color Codes

Voltage Wire Colors

12AC - Blue & Orange/White || 24AC - Blue & Black/White
12DC - 2 - Orange/White || 24DC - 2 - Black/White

THE OUTDOOR SOLUTION

CYLINDRICAL, MORTISE, & RIM PANIC EXIT DEVICES

EN400CMRP

**THE ONLY ELECTRIC STRIKE SOLUTION
ON THE MARKET THAT CAN HANDLE**

**CYLINDRICAL, MORTISE,
DEADLATCHES, AND RIM PANICS**

The Flexible 400CMRP Includes:

- A complete strike in the box (see price section below).
- An additional strike latch that allows for use with mortise, cylindrical locks, and rim panic devices.
- The **EN400-Gatebox** - mount the strike anywhere.
- The **EN-24DC-CA** - change the voltage from 12 to 24DC
- Fail safe/Fail secure field reversible.
- Always Low Current Draw

RP Latch

EN400-Gatebox

Install the EN400CMRP
anywhere on the frame or post.

4850-ITL

“Feel” the door work with the strike on the frame... then drill.

- 4850-ITL installation tool has magnets installed which allows it to attach to steel frames, so you can:
 - Adjust and center the strike before ever drilling a hole eliminating any mistakes.
 - Increase your installation speed on every job.
- 1/4" Spacer included, so the tool becomes 3/4" thick, and is also magnetized. (screws on side anchor the spacer to the tool)
- Included custom center punch makes precise marks on the frame for drilling. Marks all anchor pin holes, mounting screws, power, and optional LB sensor.
- Patented

Price:
4850-ITL \$475

Custom Center Punch

ANSI-ITL

A comprehensive installation tool for our Premium 2-3/4" and 4-7/8" ANSI electric strikes

- The ANSI-ITL installation tool was designed to allow you to easily install these popular strikes:
 - 234 -234X-375 -323478LC -323478F-LC -4100
 - 4100DB -4100DBDL -4300 -478 -478X-375 -EN400
- Screw directly into the pre-existing tabs and mark.
- Carbide tip scribe included
- Adjustability allows for use with Timely®/Redi®/Raco®/IDP® style frames.

Accessories

Signal Kits & Transformers

215 — WINDOW/DOOR ENTRY/EXIT SIGNAL KIT

- N/O magnetic contact switch activates alarm
- User can set for Chime or 105db alarm sound
- On/Off switch
- No wiring
- (3) L1154 batteries (included)
- Contacts provided with mounting tape

Price:

215 \$17

598 — CLAMP ON TYPE/TRI VOLT (AC)

- Equipped with convenient screw-bracket mounting clamp for standard 1/2" knockouts
- 120 volt primary AC
- 2-15/16"D x 2-7/32"H x 2-11/32"W 1lb 6oz

598 Electric Characteristics:

8VAC — 20VA — 2.50 AMPS
16VAC — 30VA — 1.88 AMPS
24VAC — 30VA — 1.25 AMPS

Price:

598 \$39

599 \$39

599 — (2) — CLAMP ON TYPE (AC)

- Equipped with convenient screw-bracket mounting clamp for standard 1/2" knockouts
- 120 volt primary AC
- Electric Characteristics: **24VAC — 40VA — 1.65 AMPS**
- 2-15/16"D x 2-3/16"H x 2-11/32"W 1lb 6oz

5204 — PLUG IN TYPE (AC)

- 120 volt primary AC
- Electric Characteristics: **12VAC — 20VA — 1.667 AMPS**
- 2"D x 3"H x 2-1/2"W 7oz

Price:

5204 \$33

5205 — PLUG IN TYPE/TRI VOLT (AC)

- 120 volt primary AC
- 2"D x 3"H x 2-1/2"W 7oz

5205 Electric Characteristics:

8VAC — 10VA — 1.25 AMPS
16VAC — 10VA — 0.62 AMPS
24VAC — 20VA — 0.83 AMPS

Price: \$39

SR1 — SILICON RECTIFIER (SR-1)

- For converting AC voltage to DC voltage
- For AC power supplies up to 27 volt AC 1 amp.
- Size 1" x 1/2" x 1"

SR1 Electric Characteristics:
12-27VAC — 1.00 AMPS

Price: \$32

Wireless Controller & Transmitter

017TDC-4 — WIRELESS CONTROLLER

UTILIZES ROLLING CODE

- 500' Range
 - 2 Channel receiver and transmitter
 - Independently programmable A & B channel.
 - 4, 8, 16 second delay or alternate action trigger
 - Dry contact relay rated up to 30V @ 5 amps
 - Single push button program erase (for security)
 - Screw terminal connections
 - Up to 8 transmitters per one receiver.
 - FCC-IC approved.
- **Not backwards compatible with any previous 017TDC/018 models.**

Price: **\$115**

018-4 — WIRELESS TRANSMITTER

TWO BUTTON TRANSMITTER

- Four color options
- 8 transmitters per receiver.
- LED indicates operation
- Rolling Code technology provides self learning and 4+ billion codes.
- A-23 Battery Included
- FCC-IC approved

Bells, Buzzers, & Switches

342 — ELECTRIC DOOR SWITCH (NARROW STYLE)

- Face plate brass finish 3-7/8"H x 1-1/4"W
- Box 2-5/8"H x 1-3/16"W x 2-1/8"D
- Switch Rating: 120VAC, 10 Amps 250VAC, 5 Amps
- Field selectable N/C or N/O
- Stamped steel case — UL, CSA listed switch & wire leads
- Faceplate Powder Coated Brass
- 4 - knockouts 7/8"

Price:

342 \$31

270 — BUZZER

- Enclosed buzzer — 92db sound at 3 feet
- Operating range 3-6VDC, 8-16 VAC, 1 Amp draw
- Aluminum powder coat finish
- Includes mounting hardware

Price:

270 \$23

272 — BELL

- 100 db sound at 3 feet — 2-1/2" open bell
- Operating range 3-6VDC, 8-16 VAC, 1 Amp draw
- Aluminum powder coat finish
- Includes mounting hardware

Price:

272 \$25

274 — BELL

- 100 db sound at 3 feet — 4" open bell
- Operating range 3-6VDC, 8-16 VAC, 1 Amp draw
- Aluminum powder coat finish
- Includes mounting hardware

Price:

274 \$27

275 — ENCLOSED BELL

- 88 db at 3 feet
- Operating range: 3-8VDC, 1.4 Amp draw
- 6-8VAC, 0.7 Amp draw
- Grey finish — Includes mounting hardware

Price:

275 \$32

276 — ENCLOSED BELL & BUZZER

- 88 db at 3 feet
- Operating range: 3-8VDC, 1.4 Amp draw
- 6-8VAC, 0.7 Amp draw
- Grey finish — Includes mounting hardware

Glossary

ALTERNATING CURRENT (AC)

An electric current that reverses direction in a circuit at regular intervals.

CONTINUOUS DUTY

A device that is designed to operate continuously without rest.

CURRENT

Measured flow of electrons through an electrical conductor. Normally measured in amperes.

DIRECT CURRENT

An electric current flowing in one direction.

DOOR HANDING

FAIL SAFE

A device that is normally open and locks when power is applied to the unit. EXAMPLE: During a loss of power the device remains open. Often listed as "RS"

FAIL SECURE

A device that is normally closed or locked until power is applied. EXAMPLE: During a loss of power the device remains locked.

FUSE

A device that is placed in the path of energy that will break the circuit if the current becomes too great. This is accomplished by having a strip of metal that will melt when the current exceeds the required amount.

INTERMITTENT DUTY

A device that is designed to operate for a short period of time; generally less than 45 seconds.

LOCKSET TYPES

Mortise Lock

Dor-O-Matic

Vertical rod latch

Cylindrical Lock

Rim Panic Exit Device

Mortise Exit Device

Dead Latch

NORMALLY OPEN

The contacts of a switch or relay are normally open or not connected. When activated the contacts close or become connected. EXAMPLE: A switch is not depressed and the circuit is not complete.

NORMALLY CLOSED

The contacts of a switch or relay are normally closed or connected. When activated the contacts open or become disconnected. EXAMPLE: A switch is not depressed and the circuit is complete.

OHMS

The measure of resistance of an electrical device to resist the flow of energy.

RECTIFIER

A device that is commonly used to convert AC to DC. Commonly used to silence the audible sound that an electrical strike can make while energized on AC current.

RELAY

An electro-magnetic device activated by a variation in conditions in one electric circuit and controlling a larger current or actuating other devices in the same or another electric circuit.

STANDARD VOLTAGE

Electric door strike supplied with magnetic coils: 4-6VDC/8-16VAC. Electric door strikes supplied with a solenoid coil: 6-10VDC, 10-16VAC: other voltages available.

TRANSFORMER

A device consisting essentially of two or more coils of insulated wire that transfers alternating current by electro-magnetic induction from one winding to another at the same frequency, but usually with changed voltage & current.

VOLT

A unit of electric potential equal to the difference of electric potential between two points that have a resistance of one ohm and through which a current of one amperes is flowing.

VOLTAGE DROP?

We recommend the following wire sizes:

Wire Length	12V	24V
Up to 50 ft.	18 AWG	20 AWG
51-150 ft.	16 AWG	18 AWG
151-300 ft.	14 AWG	16 AWG
301-600 ft.	12 AWG	14 AWG

WATT

The power developed in a circuit by a current of one ampere flowing through a potential difference of one volt.

CONDITIONS OF SALE

Distributors and Other Commercial Customers

Note: The following Conditions of Sale are subject to change: All Sales Transactions are subject to the latest published Conditions of Sale of the Trine Access Technology Corporation and to any Special Conditions of Sale which may be contained in applicable Trine quotations and acknowledgements. Modified product warranties are provided to consumers.

1. **ACCEPTANCE, GOVERNING PROVISIONS AND CANCELLATIONS.** No order for Trine Access Technology or services shall be binding upon Trine until accepted by a writing of an authorized official of Trine or by shipment or other performance of such order. Any such order shall be subject to these Conditions of Sale, and acceptance shall be expressly conditioned on assent to such Conditions, which assent shall be deemed given unless purchaser shall expressly notify Trine to the contrary prior to the earlier of any shipment or other performance of an order by Trine or within five (5) days after purchaser's receipt of any acknowledgement or confirmation of such order. Trine expressly reserves the right to reject and withdraw acceptance of any order.

No order accepted by Trine may be altered or modified by purchaser unless agreed to in a writing signed by an authorized official of Trine; and no such order may be cancelled or terminated except upon payment of Trine's loss, damage and expense arising from such cancellation or termination. These Conditions of Sale may not be supplemented or modified by course of dealing, course of performance or any oral communication between the parties. No modified or other conditions will be recognized by Trine unless specifically agreed to in writing and failure of Trine to object to provisions contained in any purchase order or other communication from a purchaser (including, without limitation, penalty clauses of any kind) shall not be construed as a waiver of these Conditions nor an acceptance of any such provisions.

Unless otherwise agreed in writing by a duly authorized representative of Trine, products sold hereunder are not intended for use or in connection with a nuclear facility or activity. If so used, Trine disclaims all liability for any nuclear damage, injury or contamination, and purchaser shall indemnify Trine against any such liability, whether as a result of breach of contract, warranty, tort (including negligence) or otherwise. Any contract for sale and these Conditions shall be governed by and construed according to the laws of the State of Connecticut. Any dispute arising out of or relating to these Conditions of Sale or any matter relating hereto shall be brought in the federal or state courts sitting in or for the Bethel, Connecticut, and the parties waive any objection they may have to the jurisdiction or subject matter of these courts.

2. **QUOTATIONS AND PRICES.** Written quotations are conditioned upon acceptance by purchaser within thirty (30) days from the date issued and shall be considered as offers by Trine to sell during such thirty (30) day period on these Conditions of Sale unless sooner terminated by notice. Other Trine publications are maintained as sources of general information and are not quotations or offers to sell.

All clerical errors are subject to correction.

MINIMUM ORDER: \$100.00 Net. DROP SHIP FEE: Trine reserves the right to charge a fixed fee of \$10.00 for shipping to an address other than customers.

All prices are subject to change without notice. In the event of a net price change, the price of equipment on order but unshipped will be adjusted to the price in effect at the time of shipment. Downward adjustment of prices shall apply only to unshipped portions of outstanding orders.

3. **PAYMENT TERMS.** Unless otherwise agreed by Trine, terms of payment for Trine products to purchasers of satisfactory credit are either (1) a 1% cash discount for all invoices paid in full if the payment is received by Trine within 10 days after the date of Trine's invoice or (2) full payment to be received by Trine within 30 days after the date of Trine's invoice. Applicable terms of payment are stated in quotations or on the discount sheet for the product involved. Cash discount will apply only to the net amount of the invoice after transportation charges and taxes. A late charge of 1% per month or the maximum amount permitted by law will be applied to all past due amounts.

Trine reserves the right at any time to demand full or partial payment before proceeding with a contract of sale if, in its judgment, the financial condition of purchaser shall not justify the terms of payment specified. If delivery is delayed or deferred by purchaser beyond the scheduled ate, payment shall be due in full when Trine is prepared to ship and the products may be stored at the risk and expense of purchaser. If purchaser defaults when any payment is due, then the whole contract price shall become due and payable upon demand, or Trine, at its option, without prejudice to other lawful remedies, may defer delivery or cancel the contract for sale.

4. **TAXES AND OTHER CHARGES.** Any manufacturer's tax, retailer's occupation tax, use tax, sales tax, excise tax (except the Federal excise tax on vehicles), duty, custom, inspection or testing fee, or other tax, fee or charge of any nature whatsoever, imposed by any governmental authority, on or measured by any transaction between Trine and purchaser, shall be paid by purchaser in addition to the prices quoted or invoiced. In the event Trine shall be required to pay any such tax, fee or charges, purchaser shall reimburse Trine therefore; or, in lieu of such payment, purchaser shall provide Trine at the time the order is submitted with an exemption certificate or other document acceptable to the authority imposing the same. Purchase orders must state the existence and amount of any such tax, fee or charge which it shall be Trine's responsibility to collect from purchaser and pay.

5. **DELIVERY.** Delivery of products to a carrier at any Trine facility or other shipping point shall constitute delivery to purchaser; and, regardless of freight payment, title and all risk of loss or damage in transit shall pass to purchaser at that time. Trine cannot be held responsible for breakage after having received "in good order" receipts from the transportation company. All claims for loss and damage must be made by purchaser to the carrier. Claims for shortages or other errors must be made in writing to Trine within 15 days after receipt of shipment, and failure to give such notice shall constitute unqualified acceptance and a waiver of such claims by purchaser. Unless otherwise agreed by Trine in quotations, discount schedules, catalogs or other Trine publications, all expenses of freight FOB Trine's place of shipment shall be borne by purchaser. No allowance will be made in lieu of transportation if purchaser accepts shipment at factory, warehouse, freight station, or otherwise supplies its own transportation. Method and route of shipment will be at the discretion of Trine unless purchaser shall specify otherwise, and any additional expense of the method or route of shipment specified by purchaser shall be borne by purchaser. Trine reserves the right to make delivery in installments, unless otherwise expressly stipulated in the contract for sale; and all such installments when separately invoiced shall be paid for when due per invoice, without regard to subsequent deliveries. Delay in delivery of any installment shall not relieve purchaser of its obligations to accept remaining deliveries.

6. **SUBSTITUTES.** Trine may furnish suitable substitutes for materials unobtainable because of priorities or regulations established by governmental authority or non-availability of materials from suppliers, and assumes no liability for deviation from published dimensions and descriptive information not essential to proper performance of the products.

7. **WARRANTIES TO DISTRIBUTORS AND OTHER COMMERCIAL CUSTOMERS.** Trine warrants products manufactured by it to be free from defects in materials and workmanship for a period of one (1) year from date of shipment by Trine, except for all Axiom (R) labeled products which are covered for two (2) years from date of shipment by Trine. If within such period any such products shall be proved to Trine's satisfaction to be so defective, such products shall be repaired or replaced at Trine's option. This warranty shall not apply (a) to products not manufactured by Trine, (b) to products which shall have been repaired or altered by other than Trine so as, in its judgment, to affect the same adversely, or (c) to equipment which shall have been subjected to negligence, accident or damage by circumstances beyond Trine's control, or to improper operation, maintenance or storage, or to other than normal use or service. With respect to products not manufactured by Trine, the warranty obligations of Trine shall in all respect conform and be limited to the warranty actually extended to Trine by its supplier. The foregoing warranties do not cover reimbursement for transportation, removal, installation, or other expenses which may be incurred in connection with repair or replacement. Except as may be expressly provided in an authorized writing by Trine, Trine shall not be subject to any other obligations or liabilities whatsoever with respect to products manufactured by Trine or services rendered by Trine.

THE FOREGOING WARRANTIES ARE EXCLUSIVE AND IN LIEU OF ALL OTHER EXPRESS AND IMPLIED WARRANTIES, INCLUDING WITHOUT LIMITATION TITLE, MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

8. **LIMITATION OF LIABILITY.** Anything to the contrary herein contained notwithstanding, TRINE ACCESS TECHNOLOGY, ITS CONTRACTORS AND SUPPLIERS OF ANY TIER SHALL NOT BE LIABLE IN CONTRACT, IN TORT (INCLUDING NEGLIGENCE OR STRICT LIABILITY) OR OTHERWISE FOR ANY SPECIAL, INDIRECT, INCIDENTAL CONSEQUENTIAL, PUNITIVE, OR EXEMPLARY DAMAGES WHATSOEVER. The remedies of the purchaser set forth herein are exclusive where so stated and the total cumulative liability of Trine, its contractors and suppliers of any tier, with respect to this contract or anything done in connection therewith, such as the use of any product covered by or furnished under the contract, whether in contract, in tort (including negligence or strict liability) or otherwise, shall not exceed the price of the product or part on which such liability is based. Further, any claim purchaser may have with reference to Trine products or services sold or provided hereunder shall be deemed waived by purchaser unless asserted against Trine in writing within 90 days from the date the purchaser discovered, or should have discovered, the basis for the claim.

9. **RETURN OF EQUIPMENT.** No products may be returned without first obtaining Trine's written permission and a returned goods authorization number. Trine shall issue a credit to purchaser for returned goods, subject to the terms of this paragraph, and purchaser will not be entitled to any other form of reimbursement for returns. Products accepted for credit, not involving a Trine error, **shall be subjected to a minimum service charge of \$25.00, or a charge of 20% of invoice**, whichever is greater, plus all transportation charges incurred by Trine. THE MINIMUM RESTOCKING CHARGE IS \$25.00. Returned products must be securely packed to reach Trine without damage, any cost incurred by Trine to put the products in first class condition will be charged to purchaser.

10. **PATENTS.** As to products sold to purchaser by Trine, Trine shall defend any suit or proceeding brought against purchaser so far as based on a claim that said products constitute an infringement of any patent of the United States, if notified promptly in writing and given authority, information and assistance at Trine's expense for the defense of the same. In the event of a final award of costs and damages, Trine shall pay such award. In the event the use of said products by purchaser is enjoined in such a suit, Trine shall, at its own expense, either (a) procure for purchaser the right to continue using said products, (b) modify said equipment to render them non-infringing, (c) replace said products with non-infringing products, or (d) refund the purchase price (less depreciation) and the transportation and installation costs of said products. Trine will not be responsible for any compromise or settlement made without its written consent. The foregoing states the entire liability of Trine for patent infringement, and in no event shall Trine be liable if the infringement charge is based on the use of Trine products for a purpose other than that for which sold by Trine, any alteration to the Trine products or the use of the Trine products with any other product or service not manufactured by Trine. As to any products furnished by Trine to purchaser and manufactured in accordance with designs provided by purchaser, purchaser shall defend, indemnify and hold harmless Trine against any award made against Trine for patent, trademark, or copyright infringement.

11. **PATTERNS AND TOOLS.** Notice will be given if special patterns or tools are required to complete any order. Charges for such patterns or tools do not convey title thereto or the right to remove them from Trine's plant. If patterns or tools are not used for a period of two years, Trine shall have the right to scrap them without notice.

12. **FORCE MAJEURE.** Trine shall not be liable in damages or otherwise for delays in shipment or default in delivery for any reason of force majeure or for any cause beyond Trine's reasonable control including, but not limited to (a) an act of nature; (b) government action, war, riots, civil commotion, embargoes or martial laws, (c) Trine's inability to obtain necessary materials from its usual sources of supply, (d) shortage of labor, raw material, production or transportation facilities or other delays in transit, (e) other contingencies of manufacture or shipment. In the event of any delay in Trine's performance due in whole or in part to any cause beyond Trine's reasonable control, Trine shall have such additional time for performance as may be reasonably necessary under the circumstances. Acceptance by purchaser of any goods shall constitute a waiver by purchaser of any claim for damages on account of any delay in delivery of such goods.

- + Strike has 1-1/16" backset vs. 1" backset for 3000 Series.
 Ω Requires 80% less cutting of frame. Fills the frame preparation of the Adams Rite MS Locks without the need To relocate tabs for 6 5/8" or 6 7/8" electric strikes.
 \ddagger Requires 60% less frame face cutting other than models listed.
 Δ 9400 backplate means it can only handle up to a 1/2" throw – The 4850 can take up to a 1" throw.
 * UL 90 Minute Fire Rated
 ** All Stainless Steel construction, not fire rated.
 Φ Not a shallow (1 3/8") backset – cannot be used in 2" fire rated frames with 1/2" sheetrock ingress
 ∂ Number is for the Faceplate – use with a 3012, 3024, 30LC, or 30RS Mechanism, see pg 11 for more details.

NOTE: There may be variations in physical size or electrical characteristics between manufacturers. Information in the above chart based on manufacturers' catalogs and reference should be made to manufacturer's catalog for complete detail comparisons.

The only electric strike manufacturer headquartered in the USA.
